## TYPE OF SERVICE

<p>20. NATURE OF SERVICE: This filing is for an authorization to provide or use the following type(s) of service(s): Select all that apply:</p> <p><input checked="" type="checkbox"/> a. Fixed Satellite</p> <p><input type="checkbox"/> b. Mobile Satellite</p> <p><input type="checkbox"/> c. Radiodetermination Satellite</p> <p><input type="checkbox"/> d. Earth Exploration Satellite</p> <p><input type="checkbox"/> e. Direct to Home Fixed Satellite</p> <p><input type="checkbox"/> f. Digital Audio Radio Service</p> <p><input type="checkbox"/> g. Other (please specify)</p>	
<p>21. STATUS: Choose the button next to the applicable status. Choose only one.</p> <p><input type="radio"/> Common Carrier    <input checked="" type="radio"/> Non-Common Carrier</p>	<p>22. If earth station applicant, check all that apply.</p> <p><input checked="" type="checkbox"/> Using U.S. licensed satellites</p> <p><input type="checkbox"/> Using Non-U.S. licensed satellites</p>
<p>23. If applicant is providing INTERNATIONAL COMMON CARRIER service, see instructions regarding Sec. 214 filings. Choose one. Are these facilities:</p> <p><input type="radio"/> Connected to a Public Switched Network    <input type="radio"/> Not connected to a Public Switched Network    <input checked="" type="radio"/> N/A</p>	
<p>24. FREQUENCY BAND(S): Place an "X" in the box(es) next to all applicable frequency band(s).</p> <p><input checked="" type="checkbox"/> a. C-Band (4/6 GHz)    <input type="checkbox"/> b. Ku-Band (12/14 GHz)</p> <p><input type="checkbox"/> c. Other (Please specify upper and lower frequencies in MHz.)</p> <p>Frequency Lower:    Frequency Upper:</p>	

#### TYPE OF STATION

25. CLASS OF STATION: Choose the button next to the class of station that applies. Choose only one.

- ☒ a. Fixed Earth Station
- ☐ b. Temporary–Fixed Earth Station
- ☐ c. 12/14 GHz VSAT Network
- ☐ d. Mobile Earth Station
- ☐ e. Geostationary Space Station
- ☐ f. Non–Geostationary Space Station
- ☐ g. Other (please specify)

26. TYPE OF EARTH STATION FACILITY: Choose only one.

- ☒ Transmit/Receive   ☐ Transmit–Only   ☐ Receive–Only   ☐ N/A

#### PURPOSE OF MODIFICATION

27. The purpose of this proposed modification is to: (Place an "X" in the box(es) next to all that apply.)

Not Applicable

## ENVIRONMENTAL POLICY

28. Would a Commission grant of any proposal in this application or amendment have a significant environmental impact as defined by 47 CFR 1.1307? If YES, submit the statement as required by Sections 1.1308 and 1.1311 of the Commission's rules, 47 C.F.R. 1.1308 and 1.1311, as an exhibit to this application. A Radiation Hazard Study must accompany all applications for new transmitting facilities, major modifications, or major amendments.

☐ Yes ☒ No

**ALIEN OWNERSHIP** Earth station applicants not proposing to provide broadcast, common carrier, aeronautical en route or aeronautical fixed radio station services are not required to respond to Items 30–34.

29. Is the applicant a foreign government or the representative of any foreign government?

☐ Yes ☒ No

30. Is the applicant an alien or the representative of an alien?

☐ Yes ☐ No  
☒ N/A

31. Is the applicant a corporation organized under the laws of any foreign government?

☐ Yes ☐ No  
☒ N/A

32. Is the applicant a corporation of which more than one-fifth of the capital stock is owned of record or voted by aliens or their representatives or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country?

☐ Yes ☐ No  
☒ N/A

<p>33. Is the applicant a corporation directly or indirectly controlled by any other corporation of which more than one-fourth of the capital stock is owned of record or voted by aliens, their representatives, or by a foreign government or representative thereof or by any corporation organized under the laws of a foreign country?</p>	<input type="radio"/> Yes <input type="radio"/> No <input checked="" type="radio"/> N/A
<p>34. If any answer to questions 29, 30, 31, 32 and/or 33 is Yes, attach as an exhibit an identification of the aliens or foreign entities, their nationality, their relationship to the applicant, and the percentage of stock they own or vote.</p>	

#### BASIC QUALIFICATIONS

<p>35. Does the Applicant request any waivers or exemptions from any of the Commission's Rules? If Yes, attach as an exhibit, copies of the requests for waivers or exceptions with supporting documents.</p>	<input type="radio"/> Yes <input checked="" type="radio"/> No
<p>36. Has the applicant or any party to this application or amendment had any FCC station authorization or license revoked or had any application for an initial, modification or renewal of FCC station authorization, license, or construction permit denied by the Commission? If Yes, attach as an exhibit, an explanation of circumstances.</p>	<input type="radio"/> Yes <input checked="" type="radio"/> No
<p>37. Has the applicant, or any party to this application or amendment, or any party directly or indirectly controlling the applicant ever been convicted of a felony by any state or federal court? If Yes, attach as an exhibit, an explanation of circumstances.</p>	<input type="radio"/> Yes <input checked="" type="radio"/> No

<p>38. Has any court finally adjudged the applicant, or any person directly or indirectly controlling the applicant, guilty of unlawfully monopolizing or attempting unlawfully to monopolize radio communication, directly or indirectly, through control of manufacture or sale of radio apparatus, exclusive traffic arrangement or any other means or unfair methods of competition? If Yes, attach as an exhibit, an explanation of circumstances</p>	<p><input type="radio"/> Yes    <input checked="" type="radio"/> No</p>
<p>39. Is the applicant, or any person directly or indirectly controlling the applicant, currently a party in any pending matter referred to in the preceding two items? If yes, attach as an exhibit, an explanation of the circumstances.</p>	<p><input type="radio"/> Yes    <input checked="" type="radio"/> No</p>
<p>40. If the applicant is a corporation and is applying for a space station license, attach as an exhibit the names, address, and citizenship of those stockholders owning a record and/or voting 10 percent or more of the Filer's voting stock and the percentages so held. In the case of fiduciary control, indicate the beneficiary(ies) or class of beneficiaries. Also list the names and addresses of the officers and directors of the Filer.</p>	
<p>41. By checking Yes, the undersigned certifies, that neither applicant nor any other party to the application is subject to a denial of Federal benefits that includes FCC benefits pursuant to Section 5301 of the Anti-Drug Act of 1988, 21 U.S.C. Section 862, because of a conviction for possession or distribution of a controlled substance. See 47 CFR 1.2002(b) for the meaning of "party to the application" for these purposes.</p>	<p><input checked="" type="radio"/> Yes    <input type="radio"/> No</p>
<p>42a. Does the applicant intend to use a non-U.S. licensed satellite to provide service in the United States? If Yes, answer 42b and attach an exhibit providing the information specified in 47 C.F.R. 25.137, as appropriate. If No, proceed to question 43.</p>	<p><input type="radio"/> Yes    <input checked="" type="radio"/> No</p>

42b. What administration has licensed or is in the process of licensing the space station? If no license will be issued, what administration has coordinated or is in the process of coordinating the space station?

43. Description. (Summarize the nature of the application and the services to be provided).  
(If the complete description does not appear in this box, please go to the end of the form to view it in its entirety.)

Application to transfer control of satellite earth station  
authorization of AST Telecom, LLC d/b/a Bluesky from Amper, S.A. to  
Amalgamated Telecom Holdings Limited

#### CERTIFICATION

The Applicant waives any claim to the use of any particular frequency or of the electromagnetic spectrum as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise, and requests an authorization in accordance with this application. The applicant certifies that grant of this application would not cause the applicant to be in violation of the spectrum aggregation limit in 47 CFR Part 20. All statements made in exhibits are a material part hereof and are incorporated herein as if set out in full in this application. The undersigned, individually and for the applicant, hereby certifies that all statements made in this application and in all attached exhibits are true, complete and correct to the best of his or her knowledge and belief, and are made in good faith.

44. Applicant is a (an): (Choose the button next to applicable response.)

- ☐ Individual
- ☐ Unincorporated Association
- ☐ Partnership
- ☐ Corporation
- ☐ Governmental Entity
- ☒ Other (please specify)

45. Name of Person Signing  
Douglas Creevey

46. Title of Person Signing  
Chief Executive Officer

47. Please supply any need attachments.

## FCC NOTICE REQUIRED BY THE PAPERWORK REDUCTION ACT

The public reporting for this collection of information is estimated to average 2 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the required data, and completing and reviewing the collection of information. If you have any comments on this burden estimate, or how we can improve the collection and reduce the burden it causes you, please write to the Federal Communications Commission, AMD-PERM, Paperwork Reduction Project (3060-0678), Washington, DC 20554. We will also accept your comments regarding the Paperwork Reduction Act aspects of this collection via the Internet if you send them to [PRA@fcc.gov](mailto:PRA@fcc.gov). PLEASE DO NOT SEND COMPLETED FORMS TO THIS ADDRESS.

Remember – You are not required to respond to a collection of information sponsored by the Federal government, and the government may not conduct or sponsor this collection, unless it displays a currently valid OMB control number or if we fail to provide you with this notice. This collection has been assigned an OMB control number of 3060-0678.

**THE FOREGOING NOTICE IS REQUIRED BY THE PAPERWORK REDUCTION ACT OF 1995, PUBLIC LAW 104-13, OCTOBER 1, 1995, 44 U.S.C. SECTION 3507.**

**Response to Questions 34 and A20 (Ownership)**

Prior to closing the Proposed Transaction, Amalgamated Telecom Holdings Limited (“ATH”) will form a U.S.-incorporated holding company (“U.S. HoldCo”)<sup>1</sup> that ATH will designate to purchase all of the issued and outstanding member interests of AST Telecom, LLC d/b/a Bluesky (“AST”), so that, upon completion of the Proposed Transaction, AST will be a direct wholly-owned subsidiary of U.S. HoldCo. The following entities will hold an indirect 10-percent-or-greater ownership interest in AST post-closing:

Name:	Amalgamated Telecom Holdings Limited (“ATH”)
Address:	Level 2, Harbour Front Building, Rodwell Rd. G.P.O. Box 11643 Suva, Fiji
Citizenship:	Fiji
Principal Business:	holding company
Ownership interest:	ATH will hold a 100 percent equity and voting interest in U.S. Holdco
Name:	Fiji National Provident Fund (“FNPF”)
Address:	Plaza 2, 33 Ellery St., Private Mail Bag Suva, Fiji
Citizenship:	Fiji
Principal Business:	Superannuation fund
Ownership interest:	FNPF holds an approximate 72.6 percent equity and voting interest in ATH
Name:	Fiji Government
Address:	P.O. Box 2212, Government Buildings Suva, Fiji
Citizenship:	Fiji
Principal Business:	government
Ownership interest:	The Fiji government holds an approximate 17.3 percent equity and voting interest in ATH

No other person or entity will hold a direct or indirect 10-percent-or-greater equity or voting interest in AST post-closing. The Applicants also provide charts depicting the pre- and post-closing ownership structure of AST in Attachment B of Exhibit 1.

ATH and AST are also concurrently filing a petition for declaratory ruling (attached) that it would serve the public interest to permit the indirect foreign ownership of AST’s common carrier earth station license in excess of the 25 percent benchmark of Section 310(b)(4) of the Communications Act of 1934, as amended.

---

<sup>1</sup> ATH will notify the FCC of U.S. HoldCo’s name, address, and state of organization once it is formed.

**Response to Question A21 (Public Interest Statement)**

In Exhibit 1, attached hereto, the Applicants provide a complete description of the Proposed Transaction and an explanation of how it will serve the public interest.

## **EXHIBIT 1**

### **DESCRIPTION OF THE APPLICANTS AND PROPOSED TRANSACTION, PUBLIC INTEREST STATEMENT, AND ADMINISTRATIVE MATTERS**

#### **I. INTRODUCTION AND SUMMARY**

Amper, S.A. (“Amper” or “Transferor”) and Amalgamated Telecom Holdings Limited (“ATH” or “Transferee”) request Commission consent under Sections 214 and 310 of the Communications Act of 1934, as amended (the “Act”),<sup>1</sup> and An Act Relating to the Landing and Operation of Submarine Cables in the United States (“Cable Landing License Act”),<sup>2</sup> to the transfer of control of AST Telecom, LLC d/b/a Bluesky (“AST”), American Samoa Hawaii Cable, LLC (“ASHC”), and Samoa American Samoa Cable, LLC (“SASC”) (together with AST and ASHC, the “Bluesky Licensees,” together with Amper and ATH, the “Applicants”) from Amper to ATH. The proposed transaction contemplates the transfer of control of domestic and international Section 214 authorizations, Commercial Mobile Radio Service (“CMRS”) licenses, and common carrier and non-common carrier earth station licenses held by AST, as well as the transfer of control of the cable landing license associated with the American Samoa-Hawaii Cable System (“ASH Cable System”).<sup>3</sup>

Amper and its affiliates and ATH have entered into a Sale and Purchase Deed, dated September 23, 2016 (the “Purchase Agreement”) pursuant to which ATH will acquire control of the Bluesky Licensees and their affiliates (the “Proposed Transaction”) in American Samoa, Independent Samoa, the Cook Islands, and New Zealand (collectively, the “Bluesky

---

<sup>1</sup> 47 U.S.C. §§ 214, 310.

<sup>2</sup> 47 U.S.C. §§ 34-39 (“Cable Landing License Act”), Executive Order No. 10530, reprinted as amended in 3 U.S.C. § 301.

<sup>3</sup> Attachment A includes a list of FCC licenses and authorizations subject to this transaction.

Communications Group”). Following the consummation of the Proposed Transaction, the Bluesky Licensees will exist as indirect subsidiaries of ATH.

The public interest will be served by ATH’s acquisition of the Bluesky Licensees. ATH is a financially-sound company experienced in serving island-based communities in the South Pacific region. The Bluesky Licensees’ operations in American Samoa will benefit from additional financial and managerial resources and ATH’s commitment to improving its South Pacific networks and services. It will also permit the Bluesky Licensees’ current parent company, Amper, to focus on its core IT businesses in Europe and the Americas.

Neither ATH nor any of its affiliates is currently a provider of any telecommunications in American Samoa or any other U.S. jurisdiction. The transaction will be seamless and transparent to all of the Bluesky Licensees’ customers and it will have no anticompetitive effects in the relevant product or geographic markets. To the contrary, ATH’s commitment to the Bluesky Licensees’ businesses will likely spur competition in the telecommunications sector in American Samoa. Because the Proposed Transaction will bring significant public interest benefits and will not result in any material harm, the Commission should expeditiously approve it.

## **II. DESCRIPTION OF THE PARTIES AND THE PROPOSED TRANSACTION**

### **A. Seller Entities**

#### **1. Amper, S.A.**

Amper is the Transferor and ultimate parent company of the seller, eLandia International, Inc. (“eLandia”), in the Proposed Transaction. It is a holding company for operating businesses in the telecommunications, defense, and homeland security sectors. It is a corporation organized under Spanish law and headquartered in Madrid. Its shares trade publicly on the Madrid Stock Exchange under the symbol AMP. The Bluesky Licensees and their affiliates are the only

telecommunications providers owned by Amper. Amper acquired the Bluesky Licensees and their affiliates in 2011 as part of a larger acquisition of eLandia.

**2. eLandia International, Inc.**

eLandia is the seller in the Proposed Transaction and an indirect subsidiary of Amper, which controls a 91.8 percent interest in eLandia. It is a diversified holding company with operating businesses in the information technology and communications sectors. It is a corporation organized under Delaware law and headquartered in Miami, Florida. Following the consummation of the Proposed Transaction, eLandia will retain ownership of its non-telecommunication-provider businesses.

**B. Bluesky Licensees and Related Holding Company to Be Acquired by ATH**

**1. eLandia Technologies, Inc.**

eLandia Technologies, Inc. (“ELT”), is a holding company for the Bluesky Communications Group’s investment in the ASH Cable System but is not itself a Commission licensee. It is a Delaware corporation headquartered in Miami, Florida.

**2. AST Telecom, LLC d/b/a Bluesky**

AST is a diversified communications provider in American Samoa offering: mobile voice and broadband services; fixed broadband services using a hybrid fiber-coaxial (“HFC”) network; fixed wireless broadband services using unlicensed broadband spectrum in the 5 GHz band; interstate interexchange services; international telecommunications services; local exchange and exchange access services; and prepaid calling card services. AST owns the Iliili, American Samoa, cable landing station and operates the ASH Cable System on a day-to-day basis. AST is a Delaware limited-liability company headquartered in Pago Pago, American Samoa. eLandia owns a 100 percent equity and voting interest in AST.

### **3. American Samoa Hawaii Cable, LLC**

ASHC is a Delaware limited-liability company headquartered in American Samoa. It owns the ASH Cable System segment between Iliili, American Samoa, and Keawaula, Hawaii (where it lands at a cable landing station owned and operated by AT&T) and sells capacity services on that segment to carrier-customers. It is a joint cable landing licensee for that system. ELT owns an approximate 66.67 percent equity and voting interest in ASHC. The American Samoa Government owns an approximate 33.33 percent voting and equity interest in ASHC.

### **4. Samoa American Samoa Cable, LLC**

SASC is a Delaware limited-liability company headquartered in American Samoa. It owns the ASH Cable System segment between Iliili, American Samoa, and Apia, Independent Samoa (where it lands at a cable landing station owned and operated by Bluesky Samoa Limited), and sells capacity services on that segment to carrier-customers. It is a joint cable landing licensee for that system. ASHC holds a 100 percent voting and equity interest in SASC.

### **C. The Purchaser: Amalgamated Telecom Holdings Limited**

ATH is a company organized under the laws of the Republic of Fiji. ATH is an experienced and financially sound company that has a long and successful history of providing communications services to island-based and rural markets in the South Pacific. ATH was incorporated as a public company in 1998 as a vehicle through which the Fiji government's investments in the telecommunications sector were consolidated for the purpose of privatization and liberalization under its public sector reform program.

ATH, through its operating subsidiaries, is Fiji's principal telecommunications holding company. It provides a wide range of telecommunications and related services to retail, enterprise, and wholesale customers. The principal activities of the ATH group include the provision of wireline and wireless voice, Internet, and data related services; equipment; business

communications solutions; transaction management and prepaid services; directory information services; business processing outsourcing, including call center services; and international telecommunications facilities. ATH's operating units include the following companies:

- Telecom Fiji Limited ("Telecom Fiji"), a wholly-owned subsidiary of ATH, is the principal provider of fixed telephony services, broadband Internet, international voice and data connectivity, and equipment in Fiji;
- Vodafone Fiji Limited ("Vodafone Fiji"), a joint venture between ATH and the Fiji National Provident Fund ("FNPF"), provides mobile voice, broadband, and data in Fiji;<sup>4</sup> and
- Fiji International Telecommunications Limited ("FINTEL"), a wholly-owned subsidiary of ATH, provides and operates Fiji's principal international gateway for submarine cable and satellite communications, and serves as the Fiji landing party for the Southern Cross Cable Network (which connects Fiji, Australia, New Zealand, Hawaii, California, and Oregon), the Interchange Cable Network 1 (which connects Fiji and Vanuatu), and the Tonga Cable (which connects Fiji and Tonga).

ATH also provides fixed telephony, broadband Internet and data, and mobile services in the Republic of Kiribati through Amalgamated Telecom Holdings Kiribati Limited.

ATH is listed on the South Pacific Stock Exchange ("SPSE"). The FNPF currently holds approximately 72.6 percent of the shares of ATH. The FNPF is a superannuation fund that collects compulsory contributions from private sector and public sector employees and employers to provide retirement benefits to Fiji workers, and it provides other financial services

---

<sup>4</sup> Vodafone Fiji uses the Vodafone brand name pursuant to an agreement with Vodafone plc but is wholly owned by ATH.

to members. As part of its operations, FNPF invests contributions received from members into various asset classes, including local and foreign equities, local and foreign term deposits, Government securities such as bonds and treasury bills, direct property, and commercial lending. Income derived from these investments is distributed to the members' accounts at the end of each financial year. The Fiji government currently holds approximately 17.3 percent of the shares of ATH. The remaining 10.10 percent of ATH's shares are held across more than 1500 other shareholders, none of which hold five percent or more of its shares.

FNPF's seven directors are appointed by the Minister of Finance of the Fiji government, under qualifications set forth by the Fiji Reserve Bank that assure that the funds are managed by a board with broad skill sets that include investment management; corporate governance; accounting and auditing; finance and banking; risk management; law; actuarial or auditing experience and information technology or a similar engineering discipline. No more than one director of FNPF may be a civil servant.

ATH's board of directors is comprised of seven members, four of which are designated by the FNPF and three of which are designated by the Fiji government. Pursuant to SPSE listing rules, at least one third of directors must be "independent" directors, *i.e.*, a person with no material relationship with the listed company, either directly or as a partner, shareholder or officer of an organization that has a relationship with the company. At the present time, only one director is employed in the civil service, and the other five directors are all employed in the private sector. There is one vacancy on ATH's board of directors.

#### **D. Qualifications**

ATH has the requisite citizenship, character, financial, technical, and other basic qualifications under the Act and the Commission's rules, regulations, and policies to control

Commission licenses and authorizations.<sup>5</sup> ATH has operated for over 15 years as Fiji's principal telecommunications holding company, providing a broad range of telecommunications and related services. Furthermore, ATH is financially sound and has the resources to acquire control of and manage AST, ASHC, and SASC. In short, ATH is clearly qualified to obtain control over the Bluesky Licensees.

#### **E. Description of the Proposed Transaction**

ATH, Amper, eLandia, ELT, and AST executed the Purchase Agreement, pursuant to which ownership of the Bluesky Licensees and ultimate control of their FCC licenses and authorizations will be transferred from Amper to ATH. Specifically, under the Purchase Agreement, eLandia will sell to a U.S.-incorporated holding company ("U.S. Holdco") that will be a wholly-owned direct subsidiary of ATH,<sup>6</sup> all of the issued and outstanding member interests in AST, and eLandia will sell to ATH all of the issued and outstanding shares of ELT. Thus, post-closing, AST will become an indirect, wholly-owned subsidiary of ATH, while ASHC and SASC will become indirect majority-owned subsidiaries of ATH. The pre- and post-consummation ownership structure of the Bluesky Licensees is illustrated in the diagrams in Attachment B. ATH's acquisition of the Bluesky Licensees is part of the larger Proposed Transaction, in which ATH will acquire Amper's interests in the Bluesky Communications Group's operations in the Cook Islands, Independent Samoa, and New Zealand. The parties seek to consummate the Proposed Transaction no later than December 2017. Consummation of the

---

<sup>5</sup> As noted below, the Applicants are concurrently filing a petition for a declaratory ruling confirming that it is in the public interest to permit a greater than 25 percent indirect foreign ownership interest in AST.

<sup>6</sup> ATH will notify the FCC of U.S. HoldCo's name, address, and state of organization once it is formed.

Proposed Transaction is subject to satisfaction of a number of closing conditions, including receipt of regulatory consents and clearances as described in part IV below.

### III. STANDARD OF REVIEW

Under Sections 214(a) and 310 of the Act and the Cable Landing License Act, the Commission must determine whether the proposed transfer of control is consistent with the public interest, convenience, and necessity.<sup>7</sup> The Commission generally considers applications under a four pronged test focused on potential benefits and harms: (1) whether the transaction would result in the violation of the Act or any other applicable statutory provision;<sup>8</sup> (2) whether the transaction would result in a violation of Commission rules;<sup>9</sup> (3) whether the transaction would substantially frustrate or impair the Commission's implementation or enforcement of the Act or interfere with the objectives of that and other statutes;<sup>10</sup> and (4) whether the transaction

<sup>7</sup> See, e.g., *Applications of AT&T Inc. and DIRECTV For Consent to Assign or Transfer Control of Licenses and Authorizations*, Memorandum Opinion and Order, 30 FCC Rcd 9131, 9139-40 ¶ 18 (2015) (“*AT&T-DIRECTV Order*”); *Applications of XO Holdings and Verizon Communications, Inc. to Transfer Control of Licenses and Authorizations*, Memorandum Opinion and Order, DA 16-1281, WC Docket No. 16-70, at 4 ¶ 7 (WCB, IB, WTB, rel. Nov. 16, 2016) (“*Verizon-XO Order*”).

<sup>8</sup> See *AT&T-DIRECTV Order*, 30 FCC Rcd at 9139 ¶ 18 (citations omitted); *Verizon-XO Order* at 4 ¶ 7; *SoftBank Corp., Starburst II, Inc., Sprint Nextel Corp., and Clearwire Corp. for Consent to Transfer Control of Licenses and Authorizations*, Memorandum Opinion and Order, Declaratory Ruling, and Order on Reconsideration, 28 FCC Rcd 9642, 9650-51 ¶ 23 (citations omitted) (2013) (“*SoftBank-Sprint-Clearwire Order*”); *Quest Communications International Inc. and CenturyTel, Inc. d/b/a CenturyLink for Content to Transfer Control*, Memorandum Opinion and Order, 26 FCC Rcd 4194, 4198-99 ¶ 7 (2011) (“*Qwest-CenturyLink Order*”); *AT&T Inc. and BellSouth Corp. Application for Transfer of Control*, Memorandum Opinion and Order, 22 FCC Rcd 5662, 5672 ¶ 19 (2007) (“*AT&T-BellSouth Order*”).

<sup>9</sup> See *AT&T-DIRECTV Order*, 30 FCC Rcd at 9139-40 ¶ 18 (citations omitted).

<sup>10</sup> See *AT&T-DIRECTV Order*, 30 FCC Rcd at 9140 ¶ 18 (citation omitted); *Verizon-XO Order* at 4 ¶ 7; *SoftBank-Sprint-Clearwire Order*, 28 FCC Rcd at 9651 ¶ 23 (citation omitted); *Qwest-CenturyLink Order*, 26 FCC Rcd at 4199 ¶ 7; *AT&T-BellSouth Order*, 22 FCC Rcd at 5672 ¶ 19.

promises to yield affirmative public interest benefits without any material countervailing harms.<sup>11</sup> In this case, the Proposed Transaction offers significant public interest benefits without any countervailing public interest harms. The Commission should therefore expeditiously grant consent for the consummation of the Proposed Transaction.

#### **IV. THE PROPOSED TRANSACTION WILL SERVE THE PUBLIC INTEREST, CONVENIENCE, AND NECESSITY**

In considering the public interest benefits of the Proposed Transaction, it is important to recognize the unique aspects of offering services in American Samoa, an unincorporated territory of the United States located in the South Pacific Ocean. Part of the Samoan Islands chain, American Samoa consists of five main islands and two coral atolls covering a total land area of approximately 78 square miles (slightly larger than Washington, D.C.). American Samoa is located approximately 2,600 miles from Honolulu and 4,700 miles from Los Angeles. By contrast, American Samoa's main island of Tutuila is a mere 769 miles from the island of Viti Levu in Fiji, where ATH is headquartered.

American Samoa is the only populated U.S. territory in the Southern Hemisphere, with a total population of approximately 55,000, almost all of which resides on Tutuila. The Manua Islands Group, located 68 miles east of Tutuila, has a population of approximately 1,400. Per-capita income in American Samoa is significantly lower than on the U.S. mainland.

American Samoa's islands have mostly rocky and mountainous terrain covered by tropical rain forests and heavily-indented coastlines. American Samoa suffers from seasonal cyclones (known elsewhere as hurricanes or typhoons) and tropical storms. The territory's

---

<sup>11</sup> See *AT&T-DIRECTV Order*, 30 FCC Rcd at 9140 ¶ 18 (citation omitted); *Verizon-XO Order* at 4 ¶ 7; *SoftBank-Sprint-Clearwire Order*, 28 FCC Rcd at 9651 ¶ 23 (citation omitted); *Qwest-CenturyLink Order*, 26 FCC Rcd at 4199 ¶ 7; *AT&T-BellSouth Order*, 22 FCC Rcd at 5672 ¶ 19 (citation omitted).

marine climate also takes a significant toll on network equipment. Given all of these factors, transport costs for any business enterprise are high, and economies of scale can be difficult to achieve.

**A. ATH's Control of the Bluesky Licensees Will Serve the Public Interest**

**1. ATH Has Strong Technical and Financial Qualifications and Extensive Experience in Island-Based Markets in the South Pacific**

ATH has significant expertise in operating facilities-based communications networks in the South Pacific region in island environments similar to American Samoa. Moreover, ATH has the requisite technical qualifications to control the Bluesky Licensees and operate their licensed facilities. Because ATH affiliates operate communications networks in Fiji and Kiribati, with similar operating challenges in terms of terrain, weather, and population densities, ATH is well aware of, and has significant experience dealing with, the operational and other difficulties presented by the provision of telecommunications services in remote island communities such as American Samoa. Adding ATH's expertise to oversee the existing staff of the Bluesky Licensees will enhance their operations in American Samoa. ATH also expects to improve staff training and development, provide cross-employment opportunities for American Samoa employees, and assist AST's businesses in American Samoa to modernize and upgrade their back-office systems and services.

"The Pacific Islands is one of the world's most vulnerable regions to natural disasters,"<sup>12</sup> and ATH has extensive experience in implementing effective disaster planning and executing on disaster recovery efforts. Like American Samoa, Fiji is particularly vulnerable to cyclones.

---

<sup>12</sup> GSMA, Pacific Islands Mobile Economy 2015 at 40, <https://gsmaintelligence.com/research/?file=23485245295f02524925b2bd3aeec6de&download>.

During the 2015-2016 storm season, for example, Fiji suffered a direct hit from Cyclone Winston, a Category 5 storm that was the strongest on record to make landfall in the Southern Hemisphere. Due to ATH's preparatory efforts, the core networks of its operating subsidiaries remained intact, and interrupted services were quickly restored.<sup>13</sup>

## **2. ATH Has a Proven Track Record of Increasing Broadband Deployment in Its Service Markets**

ATH has a proven track record in Fiji of providing both mobile and fixed broadband penetration in its operating companies' service markets. Fiji has one of the highest mobile penetration rates, as well as one of the highest mobile broadband penetration rates in the South Pacific, with increasing growth in the acceptance of its LTE offerings throughout ATH's served markets. ATH's Telecom Fiji unit is also deploying fiber to the home to improve internet capacity and speeds to consumers in its primary markets.

## **3. ATH is Financially Well Established, with a Proven Record of Investment**

ATH is financially stable and has invested significant resources in its existing networks over the last few years. For example, after it acquired the assets of Telecom Services Kiribati Limited in early 2015 – in a market with significantly greater challenges than Fiji or American Samoa – ATH upgraded and launched a 3G/4G wireless network in Kiribati with improved coverage and reliability that has already nearly doubled the number of active services and

---

<sup>13</sup> See 2016 Annual Report of Amalgamated Telecom Holdings Limited at 4, [www.ath.com.fj/images/athannualreport2016.pdf](http://www.ath.com.fj/images/athannualreport2016.pdf). ATH's companies also provided free communications services to Fiji's National Disaster Management Office and other Fiji government offices to support their response and rebuilding efforts. The Vodafone ATH Foundation and Telecom Fiji also provided relief packs directly to affected families during the recovery period.

international bandwidth consumed by customers in Kiribati. ATH also continues to improve wireless services to Kiribati's outer islands.

With revenues for the ATH group of companies totaling more than FJ \$350 million in its last fiscal year, the Bluesky Licensees will benefit from the financial resources of the ATH family of providers. Control by ATH will provide the Bluesky Licensees with access to significant capital resources needed to upgrade networks and offer innovative services at competitive prices.

ATH expects that the combined companies will have greater scale and, consequently, greater purchasing power with equipment and software vendors. Thus, the Proposed Transaction will lead to a stronger regional network in the South Pacific region and deliver real benefits to all stakeholders by improving access and connectivity and delivering modern, enhanced services to consumers. This, in turn, will contribute to the economic and social well-being of American Samoans by supporting local businesses and access to employment, educational, and health care opportunities.

#### **B. Customers Will Not Be Negatively Affected By the Transaction**

The Proposed Transaction will be seamless and transparent to customers in American Samoa. AST, ASHC, and SASC will continue to provide services in the normal course without interruption, at the same rates, terms, and conditions that existed before the transaction was consummated.

Customer contracts and tariffs will not be affected by the transaction, and customers will not be required to change accounts or telephone numbers. Indeed, customers will continue to pay their bills in the same places and in the same manner as they currently do. As discussed above, over time AST's customers will benefit from the investment, experience, and commitment to high quality and cost-effective services that ATH will bring to American Samoa.

## **V. THE PROPOSED TRANSACTION WILL ENHANCE COMPETITION IN AMERICAN SAMOA**

Consummation of the Proposed Transaction will enhance competition in American Samoa. ATH's acquisition of the Bluesky Licensees will create a stronger competitor to the incumbent carrier in American Samoa. Moreover, it will not create any horizontal effects in the relevant geographic or product markets.

### **A. The Combination of ATH and the Bluesky Licensees Will Create a Stronger Competitor in the American Samoa Market**

As ATH and the Bluesky Licensees do not currently compete in the provision of any telecommunications offerings in American Samoa, the consummation of the Proposed Transaction will not reduce the number of service providers in that market.<sup>14</sup> Nor does ATH or any of its affiliates currently hold, have an interest in, or otherwise have access to any spectrum in American Samoa that might be used for interconnected voice or data services. Consequently, consummation of the Proposed Transaction will not create any geographic overlap with any of the CMRS spectrum held by AST. Moreover, ATH had no preexisting plans for entering the American Samoa telecommunications market independent of the Proposed Transaction.

On the other hand, the Proposed Transaction will give the Bluesky Licensees access to the greater financial and other in-region resources of a prominent South Pacific telecommunications provider that will improve its ability to compete against American Samoa Telecommunications Authority ("ASTCA"), the incumbent local exchange carrier in American

---

<sup>14</sup> See, e.g., *Applications Filed by Frontier Communications Corp. and AT&T Inc. for the Assignment or Transfer of Control of the Southern New England Telephone Company and SNET America, Inc.*, Memorandum Opinion and Order, 29 FCC Rcd 9203, 9208 ¶ 14 (2014) (concluding that Frontier's acquisition of AT&T's ILEC business in Connecticut "is unlikely to have adverse effects on existing competition" because the companies "do not currently compete against each other in the transaction market area [and] the transaction does not reduce the number of service providers").

Samoa that is wholly owned by the American Samoa Government. Bluesky currently competes against ASTCA in a full range of services, including mobile voice and broadband, fixed broadband Internet access, interstate interexchange, international telecommunications, and local exchange and exchange access services. ASTCA also will soon compete directly with the Bluesky Licensees in the submarine cable capacity market, as ASTCA will serve as the landing party for the new Hawaiki submarine cable system connecting Australia, New Zealand, American Samoa, and Oregon.<sup>15</sup> In short, rather than present any potential harm to competition in American Samoa, the Proposed Transaction should spur even greater competition between these two entities.

**B. Any Competition Concerns Raised by the Bluesky Licensees' Post-Transaction Affiliations with Foreign Carriers Will Be Addressed Through Dominant-Carrier Regulation on the Relevant Routes**

Although the Bluesky Licensees are presently affiliated with foreign carriers presumed to have market power in foreign telecommunications markets and will acquire new affiliations with such carriers in Fiji and Kiribati, the Commission has well-established dominant carrier safeguards to address such affiliations. The Applicants agree to comply with those safeguards as a condition of consent for the Proposed Transaction. Accordingly, the Bluesky Licensees' post-transaction foreign carrier affiliations should not raise any unresolved competitive concerns.

**VI. ADMINISTRATIVE MATTERS**

**A. Petition for Section 310(b)(4) Foreign Ownership Declaratory Ruling**

ATH and AST are concurrently filing a petition for a declaratory ruling confirming that it is in the public interest to permit a greater than 25 percent indirect foreign ownership interest in

---

<sup>15</sup> See FCC File No. SCL-LIC-20160906-00019.

AST, which holds multiple CMRS licenses and one common carrier satellite earth station authorization.

**B. Request for Approval of Additional Authorizations**

The authorizations identified in the associated applications are intended to be a complete list that includes all of the licenses and authorizations held by AST, ASHC, and SASC that are subject to the Proposed Transaction. The Bluesky Licensees, however, may now have on file, or may hereafter file, additional requests for authorizations for new or modified facilities related to the assets to be transferred to ATH, which may be granted before the Commission takes action on the transfer of control applications.<sup>16</sup>

Accordingly, the Applicants request that any Commission consent for the Proposed Transaction include authority for ATH to acquire control of the following:

- Any license or authorization issued to AST, ASHC, or SASC during the Commission's consideration of the applications and the period required for consummation of the transaction following approval, including but not limited to

---

<sup>16</sup> In particular, AST and Club 42 CM Limited Partnership ("Club 42") have filed an application seeking Commission consent to the assignment of a Lower 700 MHz B Block license (call sign WQOU674) and a Lower 700 MHz E Block license (call sign WQOU675) from Club 42 to AST, which is currently pending. *See* ULS File No. 0007294780; *AST Telecom, LLC d/b/a Bluesky and Club 42 CM Limited Partnership Seek FCC Consent to the Assignment of Two Lower 700 MHz Licenses in American Samoa*, Public Notice, WT Docket No. 16-264, DA 16-1065 (rel. Sept. 21, 2016). AST and Club 42 have also entered into a long-term spectrum manager leasing arrangement to allow AST to commence operations pending the Commission's review of the assignment application. Club 42 notified the Commission of the leasing arrangement as required under the Commission's rules. *See* ULS File No. 0007541549.

the Lower 700 MHz licenses that are the subject of AST's pending assignment application with Club 42;<sup>17</sup>

- Any construction permits held by AST, ASHC, or SASC that mature into licenses after closing; and
- Applications that are filed after the date of these applications and that are pending at the time of consummation.

Such authorization would be consistent with Commission precedent.<sup>18</sup> The Applicants also request that the Commission's approval of the transaction include any facilities or authorizations that may have been inadvertently omitted.

### **C. Exemption from Cut-Off Rules**

Pursuant to Sections 1.927(h), 1.929(a)(2) and 1.933(b) of the Commission's rules, to the extent necessary,<sup>19</sup> the Applicants request a blanket exemption from any applicable cut-off rules

---

<sup>17</sup> Because the joint application of AST and Club 42 seeking consent to assign Club 42's American Samoa licenses remains pending before the Commission, the Applicants have not listed the Club 42 licenses in the Form 603 application associated with the Proposed Transaction. To the extent the assignment of the Club 42 licenses to AST is consummated while the instant transfer of control is pending, AST and ATH will amend their Form 603 application to include the licenses acquired from Club 42. Such an amendment should be treated as minor given that AST's proposed acquisition of the Club 42 licenses is disclosed herein and, if consummated, would not materially alter the Commission's analysis of public-interest, competition, or spectrum-aggregation issues associated with the Proposed Transaction.

<sup>18</sup> See *Qwest-CenturyLink Order*, 26 FCC Rcd at 4214-15 ¶ 46; *Frontier Communications Corp. and Verizon Communications Inc. for Assignment or Transfer of Control*, Memorandum Opinion and Order, 25 FCC Rcd 5972, 5996 ¶ 64 (2010); *AT&T Wireless Services, Inc. and Cingular Wireless Corp. for Consent to Transfer Control of Licenses and Authorizations*, Memorandum Opinion and Order, 19 FCC Rcd 21522, 21626 ¶ 275 (2004) ("AT&T-Cingular Order"); *Application of WorldCom, Inc., and MCI Communications Corp. for Transfer of Control of MCI Communications Corp. to WorldCom, Inc.*, Memorandum Opinion and Order, 13 FCC Rcd 18025, 18153 ¶ 226 (1998); *NYNEX Corp. and Bell Atlantic Corp. for Consent to Transfer Control of NYNEX Corp. and Its Subsidiaries*, Memorandum Opinion and Order, 12 FCC Rcd 19985, 20097 ¶ 247 (1997); *Craig O. McCaw and Am. Tel. and Telegraph Co. for Consent to the Transfer of Control of McCaw Cellular Communications, Inc. and its Subsidiaries*, Memorandum Opinion and Order, 9 FCC Rcd 5836, 5909 ¶ 137 n.300 (1994) ("McCaw-AT&T Order").

in cases where the parties file amendments to pending applications to reflect consummation of the proposed transfer of control. This exemption is requested so that amendments to pending applications to report the change in ultimate ownership of these licenses would not be treated as major amendments. The Proposed Transaction's scope demonstrates that the ownership change would not be made for the acquisition of any particular pending application, but as part of a larger transaction undertaken for an independent and legitimate business purpose. Grant of such an exemption would be consistent with previous Commission decisions routinely granting a blanket exemption in cases involving similar transactions.<sup>20</sup>

#### **D. *Ex Parte* Status**

The Applicants request that the Commission treat this proceeding as permit-but-disclose pursuant to Section 1.1206 of the Commission's rules. The public interest in expeditiously

---

<sup>19</sup> See *Sprint Nextel Corp. and Clearwire Corp. Applications for Consent to Transfer Control of Licenses, Leases, and Authorizations*, Memorandum Opinion and Order, 23 FCC Rcd 17570, 17611 ¶ 105 (2008) ("*Sprint-Clearwire Order*"). With respect to cut-off rules under Sections 1.927(h) and 1.929(a)(2), the Commission has previously found that the public notice announcing the transaction will provide adequate notice to the public with respect to the licenses involved, including for any license modifications pending. In such cases, it determined that a blanket exemption of the cut-off rules was unnecessary. See *Ameritech Corp. and GTE Consumer Services Inc. for Consent to Transfer Control of Licenses and Authorizations*, Memorandum Opinion and Order, 15 FCC Rcd 6667, 6668 ¶ 2 n.6 (WTB 1999); *Comcast Cellular Holdings, Co. and SBC Communications, Inc. for Consent to Transfer Control of Licenses and Authorizations*, Memorandum Opinion and Order, 14 FCC Rcd 10604, 10605 ¶ 2 n.3 (WTB 1999).

<sup>20</sup> See, e.g., *Sprint-Clearwire Order*, 23 FCC Rcd at 17611 ¶ 105; *AT&T-Cingular Order*, 19 FCC Rcd at 21626 ¶ 275; *PacifiCorp Holdings, Inc. and Century Tel. Enterprises, Inc. for Consent to Transfer Control of Pacific Telecom, Inc., a Subsidiary of PacifiCorp Holdings, Inc.*, Memorandum Opinion and Order, 13 FCC Rcd 8891, 8915-16 ¶ 47 (WTB 1997); *McCaw-AT&T Order*, 9 FCC Rcd 5909 ¶ 137 n.300.

considering these applications would be served by the flexibility permitted by permit-but-disclose procedures.<sup>21</sup>

#### **E. Unconstructed Facilities and Trafficking**

To the extent authorizations for unconstructed systems are implicated by the Proposed Transaction, these authorizations are merely incidental, with no separate payment being made for any individual authorization or facility. This transaction thus raises no trafficking issues, and there is no reason to review the transaction for trafficking.<sup>22</sup>

### **VII. CONCLUSION**

For the reasons above, the Applicants respectfully submit that the grant of these applications will serve the public interest, convenience, and necessity, and thus warrants prompt Commission approval.

---

<sup>21</sup> The Commission may adopt modified ex parte procedures in particular proceedings if the public interest so requires. *See* 47 C.F.R. § 1.1200(a).

<sup>22</sup> *See id.* § 1.948(i)(1) (authorizing the Commission to request additional information if the transaction appears to involve unconstructed authorizations obtained for the “principal purpose of speculation”).
